

HYDRAULIC & MECHANICAL SCOOPS

Hydraulic & Mechanical Scoops

Three versatile attachments for indoor or outdoor bulk material applications.

- **Complete control from driver's seat** — all aspects of scooping and dumping cycle done from safety of operator's seat.
- **Durable blade** — the bucket has a hardened steel blade to resist abrasion.
- **Mechanical or Hydraulic operation** — two mechanical scoops offer either carriage or fork mount options. Hydraulic scoop is mounted on the carriage.
- **Easy installation** — quick release kit is available for removal of scoop to free the lift truck for pallet operations.
- **Welded Hardened Steel Blade**

Scoop Specifications

Model No.	Max. Cap. (Lbs.)	Struck Cap. Cu. Ft.	Width (In.)	Depth (In.)	Height (In.)	Weight (Lbs.)
Mechanical — Carriage Mounted
