

TELESCOPING BOOM

Telescoping Boom

Lifts hard-to-handle loads like pipe, machining stock and tubing.

- **Slips easily onto lift truck forks** — fastens to the carriage plate with a chain. Also available in carriage mount.
- **Extendable boom** — ideal for reaching over fences or stacks of materials. Also convenient when carrying long loads.
- **Adjustable hooks** — distance between boom hooks can easily be changed from 28 inches to 145 inches for a variety of load lengths.
- **Choose from two model capacities** — with single hook, extended capacity of 2000 or 2700 pounds.
